Cape 2 Care 2026 – Security Partner Proposal

Ensuring the Safety of Our Dynamic Women Runners

Overview:

Cape 2 Care 2026 is a powerful national initiative where 12 dynamic women runners will travel through 40 towns in 9 days, raising awareness and funds to empower children and communities across South Africa. As they run through both urban and rural areas, their safety is our top priority.

We are seeking partnerships with professional security companies to provide escort and protection for our runners along the route.

Security Escort Requirements for each town:

- 5 km security escort before entering the town
- Full escort through the town centre
- 5 km escort after exiting the town

This ensures the runners' safety in both high-traffic and remote areas, while also enhancing the visibility and professionalism of the event.

Benefits for Security Sponsors:

- Official recognition as a Security Sponsor on the Cape 2 Care website
- Mentions on our social media platforms and campaign updates as we move through your town
- Opportunity for local media exposure when runners pass through sponsored towns
- Contributing to a meaningful national cause focused on children and community empowerment

Why Support Cape 2 Care?

- Be part of a high-impact national movement
- Support a cause centred on children, education, and women empowerment
- Showcase your company's commitment to safety, community, and social responsibility

We would be honoured to collaborate with your company to make this inspiring journey safe and successful.
